

FREDIENICK JOSON

Student

ABOUT ME

I'm a second-year college student at the Cavite State University Silang campus, studying a Bachelor of Science in Information Technology. I'm willing to learn a lot of new things and gain more experience.

EXPERIENCE

Freelance Dasmariñas

- I did some freelance work while we were on pandemic because all of the work was done from home. I created a blog website and designed Canva templates.

Esports Academy of Asia Pacific Dasmariñas

- I did some extra work here, assembling a large number of computers that were required for use because the university was about to open and needed an extra hand to assemble the computers that the students would be using.
-

SKILLS

- Communication
- Active listening
- Computer
- HTML
- CSS
- CISCO
- Javascript
